

**Public Notice and Review of a Proposed Activity in a
Possible Soil / Groundwater Plume in Active Remediation**

To: All interested Agencies, Groups, and Individuals

This is to give notice that **Madison County Community Development** has determined that the following proposed action under **the Community Development Block Grant (CDBG)** and **the Village of Roxana – Old Edwardsville Road Resurfacing** is partially located within the “Former Public Works Yard” potential soil / groundwater contamination plume which is in active remediation for benzene and other hydrocarbons. **This project will utilize CDBG funding to mill and overlay the asphalt road surface of Old Edwardsville Road from 7th Street south to the nearest railroad tracks in Roxana, IL.** The project is necessary to keep this infrastructure in good working condition.

Members of the public wanting more information on the active remediation at the project site are given an opportunity to inquire either by written comment or by viewing <https://roxanainvestigation.urs-stl.net>. Written comments regarding the project must be received on or before **November 10, 2025** by Cork Tree Creative, Inc., Shell Community Relations, Bridget Christner, 618-656-7333, bridget@corktreecreative.com
